person or accept donations by mail: 1083 200th St
Long Prairie, MN 56347

On May 30th, 2026, Kim received the gift of a second chance at life through a double lung transplant.

While this surgery was life-saving, the road to recovery is long. Kim is required to stay within 50 miles of the University of Minnesota for 3–5 months or longer as she heals and attends frequent follow-up appointments. To do this, the family must rent an apartment for Kim and them while providing care for her.

Donations will help ease the financial strain of extended housing, medical expenses, and ongoing transplant-related costs.

Thank you for supporting Kim and her family during this journey. ❤️
